SCIENCE AND TECHNOLOGY

Notifications

- Putting notifications into the notification bar of your device
 - Uses the capabilities of the native platform
 - Reminding the user
- Cordova plugin:
`ionic plugin add de.appplant.cordova.plugin.local-notification`

ngCordova Local Notification

```
$cordovaLocalNotification.schedule({  
    id: 1,  
    title: "Added Favorite",  
    text: $scope.dishes[index].name  
  
}).then(function () {  
  
    console.log('Added Favorite '+$scope.dishes[index].name);  
  
}, function () {  
  
    console.log('Failed to add Favorite ');  
  
});
```

Toast Message

- Show a text popup message on the device
 - Non-intrusive native notification on the screen
 - Can control the duration and location of the message
- Cordova plugin:
`ionic plugin add https://github.com/EddyVerbruggen/Toast-PhoneGap-Plugin.git`

ngCordova Toast

```
$cordovaToast.show('Added Favorite '+$scope.dishes[index].name, 'long',  
'center')  
.then(function (success) {  
  
    // success  
  
}, function (error) {  
  
    // error  
  
});
```

Exercise: Notifying the User

- Use the Cordova Local Notification plugin together with the ngCordova wrapper to put notifications into the device's notification bar
- Use the Cordova Toast plugin together with the ngCordova wrapper to show a short message to the user on the device's screen
